About me

I started my journey with a 2-month internship in Core PHP and MySQL, where I gained foundational knowledge in back-end development. This experience kick-started my career, leading to around 2 years of professional work as a Full Stack Developer. I have worked extensively with a diverse technology stack that includes React.js, Laravel 10, CodeIgniter, Flask, HTML, CSS, and jQuery. Additionally, I possess hands-on expertise in managing server environments using Plesk Control Panel. My focus has been on creating dynamic, responsive, and user-friendly web applications.

Technical skills

- | | | | |
|--------------|-----------------|-----------|---------------|
| • React JS | • Laravel 10 | • MySQL | • Tailwind |
| • HTML5 | • CodeIgniter 3 | • MongoDB | • Bootstrap5 |
| • CSS3 | • PHP | • Git | • Material UI |
