Front-End Development Specialist with a strong focus on crafting responsive and user-friendly web interfaces. Skilled in translating design ideas into functional and engaging applications while ensuring seamless user experiences.

Experience

Organization : Noitavonne – Software Developer + Intern (Oct-2023 - Mar-2025)

Working in React JS

- Collaborated on projects with React.js and integrated state management.
- Proficiently implemented components, props, state management, and hooks to deliver seamless functionality and maintainable codebases.
- Worked with RESTful APIs to fetch and display data dynamically, ensuring efficient data handling and UI updates.
- Used React Router to create smooth and dynamic user navigation across pages.
- Managed source code and contributed to projects on GitHub.
- Designed and optimized relational databases with MySQL.
- Developed and maintained websites using WordPress to enhance user experience and responsiveness.

Organization : Gyri – Software Developer + React Native (Aug-2025)

Working in React JS + React Native

- Contributed to both web and mobile application development using **React.js and React Native**.
- Built modular and reusable UI elements using **components, props, hooks, and modern state management techniques**, resulting in cleaner and more scalable code.
- Maintained clean coding standards and contributed to building reliable, scalable, and user-friendly applications across devices.

Projects Overview –

- 1) **DILboogient** : Developed a DJ event booking platform, ensuring seamless user experience and responsiveness using HTML, CSS, JavaScript, and Bootstrap.
- 2) **It's Going to Be OK** : Built a donation website to support human trafficking victims, integrating payment systems And secure back-end using Express.js and MySQL.
- 3) **PODCAST** : Created a podcast platform similar to Spotify, featuring audio streaming, search functionality, and user accounts. Managed state with TanStack Query and deployed APIs using Express.js.
- 4) **Axiom Web Control**: Developed a web service management platform with dynamic features to streamline service controls using React.js and Express.js.
- 5) **M-Pamoja**: Developed a tenant and user management CRM using a React.js template with optimized UI/UX in Bootstrap. Also built the mobile app in React Native for cross-platform user access and seamless CRM functionality.
- 6) **Eclinic**: Developed a modern healthcare management platform using a **React.js template**, Also built the mobile application using React Native, allowing users to access clinic services across Android and iOS with consistent design and functionality.

Education

- **Masters of Computer Application** *CGPA : 8.11*
 - ♦ D. Y. Patil - Agricultural and Technical University
 - ♦ 09/2022 - 07/2024
- **Bachelor of Science** *CGPA : 8.64*
 - ♦ Shivaji University Kolhapur
 - ♦ 07/2019 - 08/2022

Skills

- ♦ React JS
- ♦ JavaScript
- ♦ MySql
- ♦ Git & GitHub
- ♦ React Native
- ♦ Api Integartion
- ♦ Html , CSS
- ♦ Bootstarp , Tailwind
- ♦ Git & GitHub
